

Guide to Residential Lifts

If you're looking to enhance mobility access at home for yourself or a loved one, Accessibility Solutions, Inc. offers a wide range of affordable options from top industry brands. Our products include:

- [Stairlifts](#)
- [Wheelchair Lifts](#)
- [Elevators](#)
- [Dumbwaiters](#)

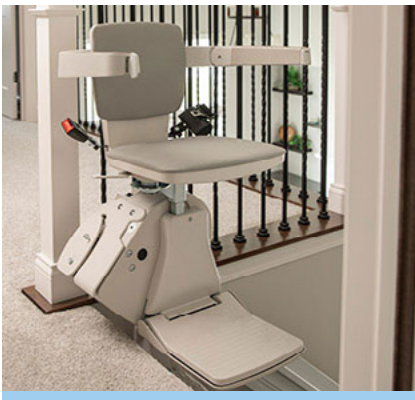

Accessibility Solutions, Inc. installs and services custom mobility solutions for both indoor and outdoor use. Our products are highly customizable, from matching your decor to accommodating heavy loads. With 25 years of experience, our experts are highly regarded throughout New York State. If you need to improve accessibility at your residence, ASI would be honored to assist you.

Stairlifts

If you or a loved one have mobility concerns, a stairlift is an affordable solution to regain full access to your home. Stairlifts are straightforward devices that attach to staircase rails, powered by an electric motor and operated with simple button controls. With a stairlift, you can effortlessly reach all levels of your home once more.

Accessibility Solutions sells, installs, and services custom stairlifts for both indoor and outdoor use. Installation is quick and requires no home modifications. We offer both straight and curved stairlifts to fit any railing. We also rent a stairlifts for short-term use. If a stair chair lift sounds like the right solution for you contact us to get started.

Straight Stairlift

A straight stairlift is the most economical choice for stairways without curves or landings. Our technicians can easily install them, allowing you to quickly regain independence in your home. We offer straight stairlifts from leading manufacturers, providing a cost-effective solution for home accessibility without the expense of an elevator.

Curved Stairlift

Does your stairway curve or have landings? No problem. Our curved stairlifts are specifically designed for such configurations. While curved stairlifts do cost more than standard straight models and are not available for rental, they remain a more affordable solution than relocating to a new home.

Outdoor Stairlift

Did you know you can easily access areas outside your home by installing a stairlift? These durable lifts are perfect for raised yards, decks, and porches. Built with top-notch waterproof components, outdoor lifts withstand rain and snow without issue. They come in both straight and curved custom configurations, including stairways with landings. Plus, an outdoor stairlift requires no new construction, so you can quickly restore access to outdoor spaces or entrances.

Wheelchair Lifts

A wheelchair lift enables individuals to safely enter and exit their home or move between levels. Ideal for navigating small stairways, porches, or decks, wheelchair lifts can efficiently transport someone over short distances. These reliable electric units are quiet and easy to operate. Investing in a wheelchair lift is a cost-effective alternative to moving or undergoing major renovations..

Accessibility Solutions sells, installs, and services wheelchair lifts for both indoor and outdoor use. We offer a variety of options from leading brands, including heavy-duty models. If a wheelchair lift seems like the right solution for you or a loved one, speak to an expert today.

*Effortless.
Comfortable.
Safe.*

Elevators

If you or a loved one seek the ultimate in customizable mobility solutions, elevators are unparalleled in their versatility and elegance. They provide limitless flexibility, effortlessly accommodating wheelchairs, mobility scooters, heavy items, and multiple passengers between floors. Elevators offer functionality and the opportunity to enhance the visual appeal of any personal space. If you're aiming to elevate both style and accessibility, elevators could be the solution you've been searching for.

Accessibility Solutions boasts a team of acclaimed elevator experts with a track record of installing hundreds of units, ensuring top-notch quality. We specialize in creating custom solutions, even fitting elevators into compact spaces like closets. If you're constructing a new home, incorporating one of our elevators into your blueprints is worth considering. If a home elevator is the right investment for you, don't hesitate to reach out and contact us.

Convenient. Safe. Ultimate Style.

Dumbwaiters

Stop lifting heavy objects! Allow a dumbwaiter to handle the task for you. Dumbwaiters efficiently transport heavy items such as laundry, boxes, and groceries between floors in your house. Despite their compact size, these popular units can lift up to 120 lbs. Incorporating a simple device like a dumbwaiter can significantly enhance both convenience and safety in your home.

Accessibility Solutions offers sales, installation, and servicing for dumbwaiters. These compact freight elevators are seamlessly integrated into a wall and can open at either counter level or floor level. If a dumbwaiter seems like it could be beneficial for you, don't hesitate to reach out to us today.

Multipurpose. Compact. Safe to Use.

ASI: FAQ's

How much do your products cost?

Accessibility Solutions is dedicated to offering cost-effective mobility solutions to its community. Our pricing depends on factors like size, layout, and the necessity for modifications. Thankfully, our experts are committed to collaborating with you to discover an affordable solution. In certain cases, we also provide reconditioned products. For further details and a quote, visit wantalift.com today.

Are mobility solutions tax deductible?

Yes, they are tax exempt.

Are your products ADA compliant?

Yes—with the exception of stairlifts, our products are ADA compliant.

What are the weight limits?

Our products can accommodate a wide range of weight limits, depending on the model. Stairlifts can move up to 600 pounds. Wheelchair lifts can move 1,000 pounds. Elevators can accommodate an even greater capacity of 1,400 lbs.

Why use a local dealer?

Since 1996, Accessibility Solutions has been providing service and maintenance to our community. We prioritize getting to know our customers because they're our neighbors. Unlike large national companies, we have the advantage of serving you locally. If you encounter issues with your lift system, there's no need to wait a long time for parts to arrive. Our professionally trained technicians will promptly make repairs without hesitation!
